

American Legion Auxiliary
Department of California
Leadership Bulletin
March 2023

Members~

As we near the end of the Auxiliary year, this chairman would like to thank you all for everything you have done for this organization. You are amazing!

End of Year reports are right around the corner. It saves time and energy if your Unit members get together to complete these reports. Writing a narrative supplemental will aid the District and Department chairmen to write their reports when they have details to enhance the statistical information. It paints a picture of your events and activities. It's a great way to share ideas, too.

For those of you who attended workshops this year, THANK YOU!! I truly enjoyed spending time with you and getting to know members around the state. I am currently working on updating the certified instructor list. Please be patient-I will get your cards to you as soon as possible. If you are a newly certified instructor, please forward to me a copy of certification you completed ALA Academy 101 along with your signed certified instructor application, including \$1.00. For recertification instructors, completing ALA Academy 101 does not qualify you for recertification. You must participate in leading a 6-hour leadership workshop. The application must be signed by the certified instructor who coordinated the workshop and include the recertification application. If you require clarification or have questions, please reach out to me or refer to the Leadership Department Code.

Thanks again for all you do.

Yours in Service~

Robin

Robin Falkenberg
Department of California
Leadership Chairman
