

American Legion Auxiliary Dept. of California Community Service

Let's start this year out as "The Golden State United as One" with our communities. Let's begin with National Night Out.

National Night Out is an annual Community campaign that brings communities together with local businesses, citizens of the community, and Law Enforcement. The American Legion Auxiliary, Community Service states that "The greatest achievement is made when in the interest and efforts of the entire community are enlisted in support of a project" So, let's team up with Membership, your American Legion family and participate in your local community National Night Out, which is held on the first Tuesday of August each year. I did a little research and found that many of our Golden State California ALA Units are in the cities where National Night Out is held. Call your local Police Department to see if they host a National Night Out. On the back of this page is the list of Unit's that I found where their cities participate:

Golden State District & Unit's, please think about Mid-Year reports, what better way to begin the ALA 2023-24 year, as we unite with our communities in National Night Out, a community event. Let's team up with Membership and recruit new members, this would be great! Another factor with this event is that could place a donation jar out on our tables label, ALA California Disaster Fund, but you have to ask your police department if you can do so. Apple Valley Police said yes to us.
